

We've created this guide to help you access the LINX126 Webcast, and LINX126 event space – hosted on LINX Community.

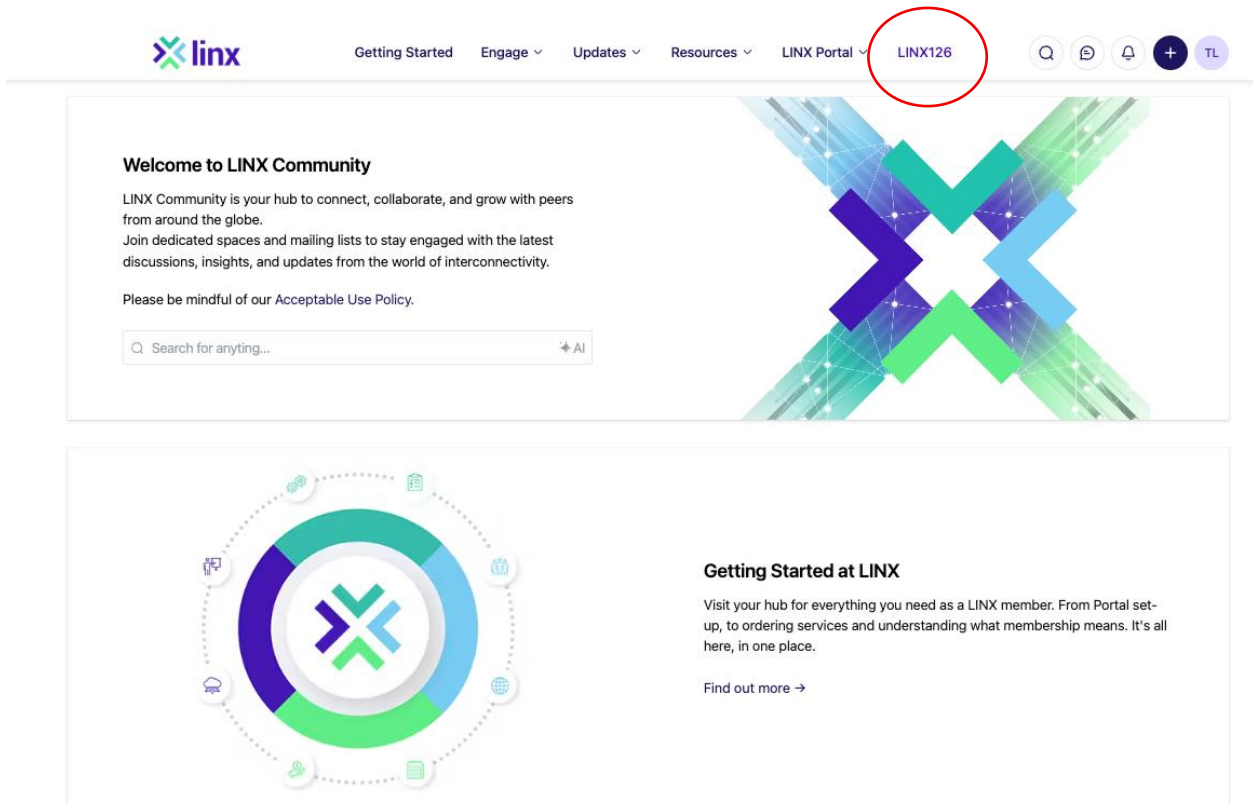

In order to access LINX Community you first need to log onto the LINX Member Portal: <https://portal.linx.net/okta-login>

The screenshot shows the LINX Member Portal interface. At the top left is the LINX logo and navigation links: LOOKING GLASS, MEMBERS, and COMMUNITY. At the top right are links for Sign in and HELP CENTER. The main content area is divided into two sections. On the left is the 'LINX Traffic Overview' section, which includes a line chart showing traffic volume over time from 02/04 to 09/04. The chart has a y-axis labeled 'Tbps' ranging from 0 to 13. Below the chart is a legend for 'LINX traffic overview' with color-coded boxes for: Aggregate, Jeddah IX, LINX Accra, LINX LON1, LINX LON2, LINX Manchester, LINX Mombasa, LINX Nairobi, LINX NoVA, LINX Scotland, LINX Wales, and Riyadh IX. A 'VIEW LINX TRAFFIC ANALYSIS' button is located above the chart. On the right is the 'Sign In' section, which prompts the user to sign in to their LINX members account. It includes input fields for 'Email address' and 'Password', a 'Remember me' checkbox, and a 'SIGN IN' button. Below the sign-in form are links for 'Need help signing in?', 'Need an account? Register now', and 'Not a LINX member yet? Start Application'.

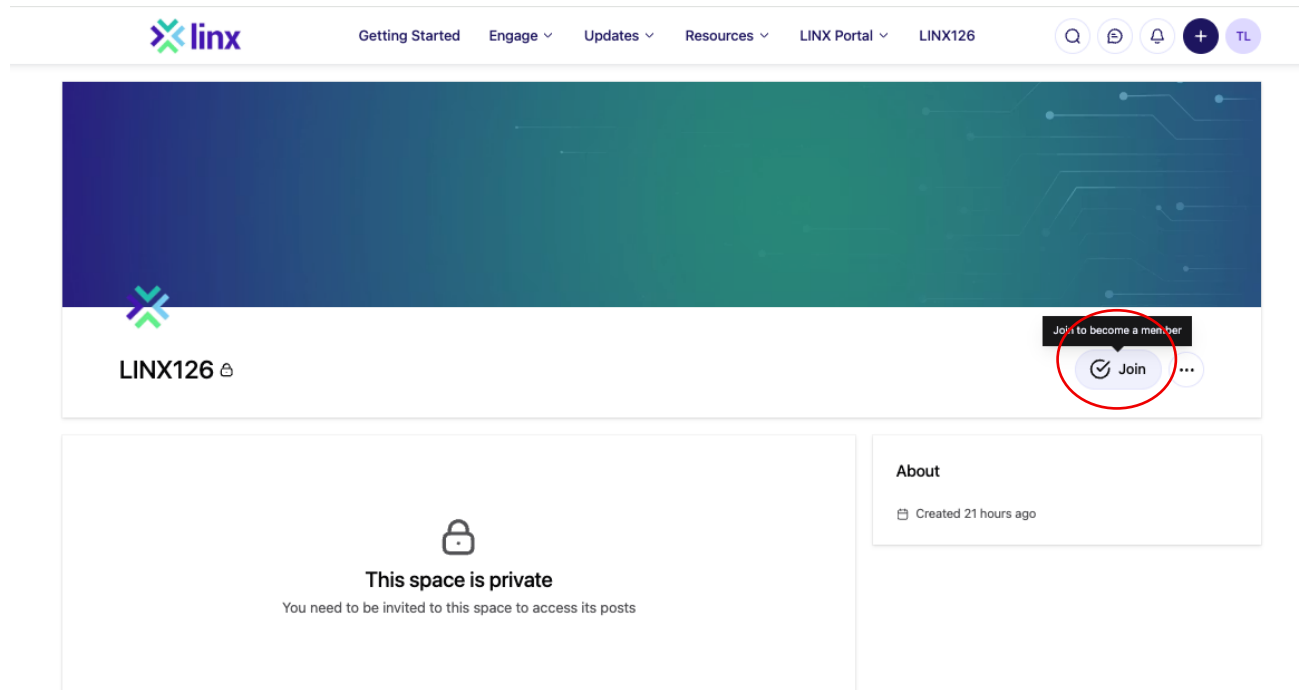

Once you have logged-on, select 'Community' from the menu and log in.

The screenshot shows the LINX Member Portal dashboard after logging in. The top navigation bar includes the LINX logo, Home, Services, Orders, Members, and Community (which is circled in red). To the right of the navigation bar are links for ACCOUNT, ABOUT, and HELP CENTER. Below the navigation bar is a banner for 'Upgrade your peering service today – new 130Gbps and 15... Log in as yourself now!'. Below the banner is a 'Welcome Back, Tom Lloyd-R... Log in as Marketing Admin' message. The dashboard is divided into several sections. On the left is a sidebar with 'LINX service availability' (March 2026), 'Quick Links' (LANs SNMP, LANs FLOW, Members, Account payments), and 'Tools' (Quick access to helpful tools). The main content area features a 'LINX Top 5 Port Services' section with a 'VIEW MY SERVICES ANALYSIS' button and a chart showing 'In Traffic' and 'Out Traffic' in Gbps over time from 02/04 to 08/04. The chart shows a significant spike in traffic on 08/04.

This will then take you to the LINX Community homepage. In the menu, select LINX126 and you will be taken to our dedicated event space.

Once you are on the space, you will be asked to join as this is a LINX Member event. Click the join button and you will be granted access to the page.

Once joined, the page will automatically reload and you can access the content available. The webcast & Q&A functionality will become available on the day.

LINX126

Shaping The Future of Connectivity

1 member 1 post

[Add discussion](#) [Joined](#)

Our Webcast will be available to watch here on the day

Our Slido Q&A will open soon

Welcome to LINX126
We can't wait to see everyone at LINX126! Click this post and let us know where you're joining from in the comments 📍

Agenda

In the meantime, check out the agenda, our sponsors or even post a message to let everyone know you're attending, where you're travelling from & what you're looking forward to! Click the add discussion button on the space banner & the below will appear. Just type your message and click publish – you can do this during the event too!
